			June 2025 > August 2026		

* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham/ug-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Common modules taken by all students:

- English for Academic Purposes
- Extended Project

You will also take 2 or 3 of the following modules that fit your degree and career goals[†]:

- Business Organisations and Management
- Contemporary Global Issues
- Historical Perspectives
- Legal Principles and Systems
- Logic and Critical Thinking
- Mathematics
- People, Culture and Society
- Statistics
- Visual Culture

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

i Optional integrated online internship

For selected course options and an extra fee (maximum £1,400), you can take an internship as an additional final term while at the College in the UK. You will:

- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:

- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus 2 of these modules:

- Digital Applications
- Preparatory Mathematics
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5: you will typically take Extended English and Skills modules to improve your English language and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:

- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:

- English for Academic Study 2 and 3
- Independent and Collaborative Study
- Reading and Writing 2 and 3
- Speaking and Listening 2 and 3
- Study Skills Preparation

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Biology

Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Organisations and Management

Examine key concepts in management theory and practice, and discuss issues relating to management in modern organisations.

Chemistry

Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Contemporary Global Issues

Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Critical Reading, Writing and Reasoning for Higher Education

Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications

Develop your digital skill set, helping you use digital tools to support academic study, including using and citing digital sources.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Extended Project

Learn how to plan, carry out and report an extended project. Choose a topic that matches your degree and career goals, and personal interests.

Historical Perspectives

Gain an understanding of the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Technology

Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Mathematics

Expand your knowledge of various mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to Legal Principles and Systems

An introductory overview and understanding of fundamental features of the English legal system.

Logic and Critical Thinking

Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Mathematics

Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

People, Culture and Society

Learn about the history, theories and issues that relate to human culture and society around the world.

Physics

Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics

Develop your numeracy skills, such as algebra, geometry and graphs.

Preparatory Science

Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics

Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Statistics

Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture

Learn more about the culture and society of the UK, and how it differs from others.

Visual Culture

Using an annotated visual research journal, you will evaluate key practitioners and movements and their historical, cultural and political contexts.

Online internship

While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience at one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more at:
kaplanpathways.com/internship

Personal development activities (all courses)**Culture and activities**

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed at least 3 years of higher education in a suitable subject. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham/pg-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Common modules taken by all students:

- English for Academic Purposes
- Research Project

You will also take 2 of the following modules to prepare for postgraduate study[†]:

- Advanced Mathematics
- Advanced Statistics
- Project Management
- Strategic Management
- UK Society and Culture (Advanced)

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

i Optional integrated online internship

For selected course options and an extra fee (maximum £1,400), you can take an internship as an additional final term while at the College in the UK. You will:

- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree

See the postgraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will also take Extended English and Skills modules before the modules to the left.

Students on a 2.5 or 3-term course will typically study:

- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students on a 3.5 or 4-term course will typically study:

- English for Academic Study 2 and 3
- Independent and Collaborative Study
- Reading and Writing 2 and 3
- Speaking and Listening 2 and 3
- Study Skills Preparation

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

See the postgraduate module summaries section for more details.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Advanced Mathematics

You'll develop a wide range of mathematical and analytical skills essential for postgraduate study in mathematics, business and related disciplines.

Advanced Social Science

Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics

Critique research data and apply standard statistical tools for the analysis of research quality.

Engineering, Science and Society

Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Introduction to English, European, and International Law.

This module aims to give you a solid grounding in legal principles and research techniques.

Philosophy, History and Culture

Explore Western philosophy and its history, and analyse events and developments in your degree in a historical and cultural context.

Project Management

Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project

Plan, carry out and report a thorough research project. Choose a topic that matches your degree and career goals, and personal interests.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management

Explore key concepts of strategic management, and evaluate their impact on businesses and their operations.

Study Skills Preparation

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)

Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Online internship

While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience at one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more at:

kaplanpathways.com/internship

Personal development activities (all courses)**Culture and activities**

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

Pre-Doctorate

A Pre-Doctorate will help you prepare for an Engineering-related doctoral degree in the UK. You're guaranteed an interview with the University of Nottingham's highly-respected Faculty of Engineering if you're on track to successfully complete your course. Progression to doctoral degrees in other Faculties is available on a case by case basis.
